

“Dean did a wonderful job taking care of our two cats while we were out of town on vacation. He would send updates daily and a picture of “the girls” to let us know they were okay. When our flight was canceled, he did not hesitate to step in and take care of them the two extra days until we could get home. Dean has taken amazing care of our neighbors dogs for years and even taken them to vet to get medical care when he thought there was an issue. As veterinarians, we are hesitant to let just anyone take care of our pets. We would recommend Dean to anyone who needs his services.” Mitch and Sue Crystal
